

North Coast Rape Crisis Team Prevention Education Request

NCRCT offers the following prevention education to all schools in Humboldt and Del Norte Counties. All prevention education is offered free of charge, but donations are welcome to offset agency cost.

NCRCT curriculum is based in evidence-informed, trauma centered principles endorsed by the California Department of Public Health (CDPH). CDPH is based in a saturation method, meaning NCRCT seeks to prevent violence through presentations to adults (staff/teachers/parents) and students. Presentations are age-appropriate and can be tailored to meet your community's challenges.

Due to the nature of the topics discussed, we request no more than 35 participants per presentation.

School Name: _____ Teacher/Staff to Act as Site Coordinator: _____
